SUMMARY

Skilled web developer with impressive experience in building and maintaining scalable web applications. Proficient in React.js, Redux, React Router. I ensure code quality and performance optimization. With a strong background in the MERN stack (MongoDB, Express.js, React.js, Node.js), I excel in both team and independent projects. I stay updated with industry trends to deliver cutting-edge solutions and have developed over 20 websites.

WORK EXPERIENCE

Software Developer Intern - Numetry Technologies   Jan 2024 - Present

As a Software Developer Intern at Numetry Technologies, I develop and maintain web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Responsibilities include designing responsive UIs with React, building APIs with Node.js and Express, and managing MongoDB data. I collaborate in an Agile environment, participate in code reviews, and enhance development processes, gaining hands-on MERN - stack experience on real-world projects.

PROJECTS

Super School website at Numetry Technologies (Live Project)

Developed a visually appealing and intuitive website for Super School using React and Bootstrap, ensuring responsiveness across devices. Collaborated in an Agile environment, actively participating in code reviews and discussions to optimize development processes and project quality.

Resume Builder using React

Developed a user-friendly Resume Builder website using React, featuring customizable templates, real- time preview, and PDF download functionality. Implemented robust form handling, seamless navigation with React Router, and data persistence with Local Storage. Utilized CSS Modules for efficient and maintainable styling.

Expense Tracker using React

Developed a React-based Expense Tracker with local storage. Enabled users to track monthly expenses, view annual overviews, calculate remaining salary, and store data persistently. Enhanced front-end development and data management skills, creating a responsive and user-friendly interface.

EDUCATION

Bachelor of Technology in Electronics and Communication Engineering   2020-2024

Vignan's Lara Institute of Technology and Sciences   7.2 CGPA

SKILLS

Technical	:	C, Java, Python, JavaScript, HTML, CSS, Redux-Tool-Kit, Git, REST-API.
Framework	:	Bootstrap, Tailwind CSS, Node JS, React JS, Express JS.
Database	:	My SQL, Mongo DB.
Certifications	:	Python for Data Science, DSA-Python , CSS, Front-End Development.
